Full Stack Software Engineer

Detail-oriented and analytical Software Engineering graduate with hands-on experience building responsive full-stack and frontend web applications using JavaScript, React, HTML, CSS, Node.js, Express.js, MongoDB, and REST APIs. Experienced in responsive design, API integration, deployment, and Git-based workflows. Background in financial operations and data management with strong problem-solving and cross-functional collaboration skills. Passionate about building scalable, user-focused applications that improve usability and create meaningful impact.

Technical Skills

JavaScript | HTML5 | CSS3 | React | React Router | Node.js | Express.js | MongoDB | REST APIs | Git | GitHub | Vite | Google Cloud | Nginx | PM2 | VS Code | Responsive Design | API Integration | Debugging | Figma | Salesforce | Microsoft Excel | Bilingual (English/Spanish)

Technical Projects

What to Wear (WTWR) | [GitHub](#) | [Demo](#)

Full-Stack Weather-Based Clothing Recommendation App

- Built a full-stack weather-based clothing application using **React**, **Node.js**, **Express.js**, and **MongoDB**.
- Developed **RESTful API routes**, responsive UI components, **protected routes**, and dynamic frontend/backend integration.
- Deployed frontend and backend services using **Google Cloud**, **Nginx**, **PM2**, and **GitHub**.

News Explorer | [GitHub](#) | [Demo](#)

Responsive News Search Application

- Developed a responsive React application that fetches and displays articles using the **News API**.
- Implemented React Router **navigation**, **authentication** modal flows, **conditional rendering**, and **responsive** mobile navigation.
- Configured production deployment using **Vite**, **GitHub Pages**, and **BrowserRouter** basename routing.

Spots | [GitHub](#) | [Demo](#)

Mock Interactive Social Media App

- Developed a client-facing app using **JavaScript DOM manipulation** to create an interactive user experience.
- Integrated **form validation** and **API data fetching** to handle user inputs and display real-time results.
- Improved accessibility and **responsive design** for multiple screen sizes.

Holiday Navigators: December Code Jam Winners (Project CJ) | [GitHub](#) | [Demo](#)

Winter East Coast Road Trip

- Collaborated with peers to design and develop a full-stack travel planning application.
- Designed responsive UI mockups in **Figma** and implemented frontend layouts using **HTML** and **CSS**.
- Contributed frontend features, Git workflows, testing, and deployment support in a collaborative team environment.

Professional Experience

Commissions Coordinator, The Corcoran Group, New York, NY

08/2022 - 08/2024

- Audited and processed **high-value financial transactions**, ensuring 100% compliance and accuracy across purchase contracts and leases.
- Managed commission adjustments, agent splits, and arrears, reducing discrepancies by improving validation workflows.
- Partnered with brokers and finance teams to resolve complex payment issues (manual wires, checks, and advances).

Small Business Funding Specialist, Clara Capital LLC, Syosset, NY

02/2022 - 07/2022

- Qualified and structured financing solutions (term loans, credit lines, working capital) for 300+ small businesses, improving client approval workflows and communication between lenders and borrowers.
- Leveraged **Salesforce CRM** to organize and track client data, ensuring seamless communication between lenders and clients.
- Negotiated terms and presented approvals, improving client retention and close rates.

Education

Completed Software Engineering Program, TripleTen, Remote

May 2026

B.S. in Business Economics, SUNY Oneonta, Oneonta NY

09/2017 - 05/21
